SUMMARY

I'm a passionate BCA student with a strong interest in web development and software design. I enjoy turning ideas into clean, responsive websites and applications. With solid knowledge of Python and C, and a growing skill set in frontend development, I'm always eager to learn, experiment, and contribute to real-world tech projects. I'm looking forward to joining a team where I can grow, build meaningful products, and make a positive impact.

SKILLS

Programming languages	**C**	**C++**	**Python**

Web Technologies	**HTML**	**CSS**	**JavaScrip**t

Tools G Platforms	**Git**	**GitHub**	**Visual Studio Code**

PROJECTS

Smart Career Guidance Platform

📅 2025

Tech Stack: HTML, CSS, JavaScript

Developed a responsive web platform to help students explore suitable career paths after 12th based on their interests and skills.

Integrated an interactive quiz that provides personalized career suggestions.

Deployed online using Netlify.
